HYGIASTIKA.—A SPEEDY AND CERTAIN GURB for neuralgia, its dolorenx, toothashe, agreement as a see preventive of convulsions, or any other complaints attendant upon early childhood during the period of techting, has been discovered, and is now being successfully administered in the form of a medicated necklace, to be worn next the skin by the patient. An eminent German physician discovered the virtues of the valuable medicines of which the beads of the packlace are made, and prescribed the mode of application. The notice of the public is not, therefore, called to a quack medicine, but to a medicament recommended by one of the most or inent of the faculty, as peculiarly powerful in acting through the pores of the skin directly upon the diseased or excited acrees, afterding generally, instant, and always permanent relief, and effecting a permanent cure. Patients who, after twenty four hours trial of the medicated necklace, according to prescription, find no relief, may, at the close of that period, by immediately returning the same, receive back their money. SCHUFFNER & MULDENNER, & Heaver street, Tastinony.—I do hereby certify that the composition of the medicated necklace offered by Schuffner & Muldense is of such a nature as to unfailingly produce the most satisfactory results.
